DIALOG FLOW

User defined chat bot was trained in dialogflow by creating intents and giving training ohrases and responses. Entities were also created.

This this bot should be integrated with UiPath so that it will be an automated chatbot.

CourseList

Training phrases ❓

⚠ Template phrases are deprecated and will be ignored in training time. More details here.

When a user says something similar to a training phrase, Dialogflow matches it to the intent. You don't have to create an exhaustive list. Dialogflow will fill out the list with similar expressions. To extract parameter values, use annotations with available system or custom entity types.

❝ Add user expression

❝ What all courses you offer?

❝ What are courses available in your university?

❝ number of courses and their names

❝ List of courses offered

❝ Hi, may i know what are the courses that are offered?

❝ what all courses are offered?
